FOR MYSORE STATE

P.W. (195) Department.

Ms. SERIES.

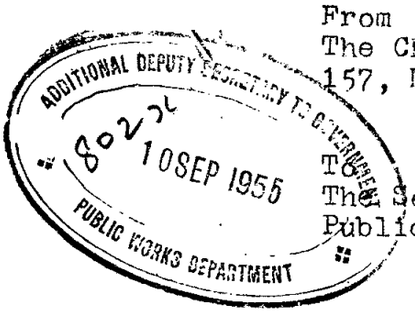
G.O. No. 3420

Dated 28-9-1955

[Despatch Abstract.]

GOVERNMENT ELECTRICITY DEPARTMENT.

--



From
The Chief Engineer for Electricity,
157, Mount Road, Madras.

To
The Secretary to Government,
Public Works Department, Madras.

No.421-H/54-15 Dated 7-9-'55.

Sir,

Sub:- Electricity Department - Establishment - Temporary - South Kanara Extension Scheme - Staff - continuance - requested.

pp 15-17 /(P) Ref:- G.O.Ms.No.971 P.W. dated 12-3-55.

--

Sanction was accorded for the continuance till 30-9-55 of the staff specified in the annexure to the G.O. cited above for attending to the construction works connected with the execution of the scheme for the supply of electricity from Jog Falls to South Kanara District.

2 I have to state that quarters in all the sub-stations viz. Mangalore, Karkala, Hiriadka, Udipi and Coondapur are in various stages of progress as detailed below and they cannot be completed before 30-9-55. Further in all the sub-stations, water supply and sanitary arrangements including septic tank, sewer lines, dispersion trench, drains etc., wire and live fencing and electrification works are to be done in all buildings. Much work could not be done during the monsoons.

3 The following additional buildings etc. are proposed to be taken up at Mangalore:

1. Repair House
2. Inspection Bungalow
3. Assistant Engineer's quarters
4. Water supply main, Over head tank and pump.

4 I furnish below a brief summary of the progress of building works at various sub-stations:

a) Hiriadka: Masonry in superstructure in progress.
b) Karkala:] Masonry upto basement level com-
c) Coondapur:] pleted. In respect of items (b) and
d) Udipi:] (c) well work is under progress and (d) well work has to be taken after proposals are finalised.

In all the above sub-stations water supply, sanitary arrangements and fencing have to be done.

Switching Stations:- Estimates for Haladi and Hosangadi Switching Station buildings are awaited and these have to be taken up and completed.

The balance works in the 110 K.V. line are

1) Providing of revetments for about 25 locations.

...2...

ii) Removal of huts - about 20 numbers.

iii) Minor rectification works.

iv) Preparation of final tower schedule.

5. As can be seen from the above there are important civil works which would require very frequent supervision of Executive Engineer and issue of instructions by him and the continued employment of the staff included in the attached statement beyond their dates of expiry viz. 30-9-55 is quite essential.

6. I therefore request that Government may be pleased to accord sanction for continuance of the staff included in the statement till 29-2-56.

7. I request very early orders of Government.

for Chief Engineer (Electricity).

Encl:- one statement.
